Insurances.

THE NEGLECT OF LIFE ASSURANCE.

THERE is no feature of our civilised life that strikes a thoughtful man with more force than the neglect of LIFE ASSURANCE. By payment of a small quarterly subscription any man of good health can secure a very large sum to his family in case of premature death, yet hundreds of families brought up in comfort—perhaps in luxury—are left in extreme poverty every year, from the bread winner having neglected to assure his life. In the East many a man lives up to his income, knowing well that if death cut him off suddenly, his wife and children would be left almost wholly unprovided for. All this can be prevented by Life Assurance.

Hongkong Telegraph

THURSDAY, AUGUST 30, 1888.

Our readers will regret to learn that news has reached the colony to the effect that, owing to continued ill health, Sir GEORGE PHILLIPPO has resigned his position as Chief Justice of Hongkong. We do not imagine that this intelligence will prove a great surprise, as it was generally anticipated when Sir GEORGE PHILLIPPO left here, that he would never return. A better or more trustworthy judge never sat on the bench of the Hongkong Supreme Court. He made mistakes—*onere est humana*—but they were few and far between, and so far as his high and responsible position would admit, he was everybody's friend. When the report of his retirement has been confirmed, the question will arise—Who shall be his successor? The Hongkong community should speak to the Government in no uncertain terms on that point. Mr. JAMES RUSSELL, the present Acting Chief Justice, has been in Hongkong for twenty-three years; he has filled every position that he has held with credit to himself and satisfaction to the colony; he is a capable Chinese scholar, and his practical knowledge of Chinese manners and customs, especially as regards Hongkong, is unequalled. The Acting Chief Justice is a sound lawyer, and he has always upheld the dignity of the Bench without infringing on the rights of Justice. He has throughout his whole official career occupied an entirely independent position, and by so doing has won the esteem and confidence of the entire community. We are, of course, aware that Mr. RUSSELL holds a comparatively minor position on the Colonial Office list for such an important and lucrative appointment as the Chief Justiceship of Hongkong; but the time has gone past when the taxpayers of a British colony are to be saddled against their wishes with the more or less useless and incompetent hangers-on and nominees of some influential Jacob-in-office. A Judge of the Supreme Court of Hongkong, to be thoroughly efficient, must know the Chinese vernacular and have had a lengthy experience of Chinese criminals. Without these qualifications he is likely to prove worse than useless. And we really have never been able to recognise why this colony should have imposed on it a crowd of expensive political nonentities, appointed by official favor, whose merits are never found out until they retire on a handsome pension, and then are universally known to be an unknown quantity. The legitimate successor of Sir GEORGE PHILLIPPO is Mr. JAMES RUSSELL, an old and tried servant of the colony, and we trust that the unofficial members of the Legislative Council, who are supposed to represent the public, will lose no time in making their views known to the Secretary of State, through His Excellency the Governor. The colony cannot afford to lose Mr. RUSSELL's special abilities at a time when they are needed so badly, and the only way to ensure his matured experience for years to come is to urge on Lord KNUTSFORD as strongly as possible his undoubted claims to the Chief Justiceship, his past unrivalled services, and the extreme likelihood of his unequalled knowledge of Chinese affairs being urgently required within the next few years.

LOCAL AND GENERAL.

The Dutch Government has signified its adhesion to the Suez Canal Convention, which has now received the approval of all the Powers.

We are informed by the agent of the Austro-Hungarian Lloyd's S. N. Co. that the Company's steamer *Poseidon* left Singapore yesterday for this port.

The Superintendent of the P. & O. S. N. Co. courteously informs us that the steamship *Anconia*, with the next English mail, left Singapore for this port yesterday at 2 p.m.

Messrs. Butterfield & Swire inform us that the Ocean Steamship Co.'s steamer *Daridanus*, from Liverpool, left Singapore for this port yesterday afternoon, and may be expected on the 5th prox.

We note from the *Straits Times* that H.M.S. *Orion*, under orders from the British Government, was to leave Singapore on Saturday last, with Sir Hugh Low on board as Commissioner, to proclaim a British protectorate over Brunei.

THE last mail from the Congo brings news of the death of Mr. Deane, the Englishman who, as chief of the Stanley Falls Station, defended it against an overwhelming force of Arabs and succeeded in effecting a retreat. He was killed during an elephant hunt near Lukoloka by an elephant whose tusk pierced his neck.

THE City of Philadelphia, which went ashore on the Olson bank after leaving Iloilo for New York on the 14th inst., succeeded in getting afloat with the assistance of a steamer, after about 450 tons of cargo had been discharged. The vessel on being surveyed at Iloilo, was found to be uninjured, and would again proceed to sea after re-shipping her discharged cargo.

OUR Macao correspondent informs us to-day that the re-elected Corporation took charge of the municipal affairs of Macao yesterday at 2.30 p.m., and proceeded at once to draft out a representation to the King of Portugal, protesting against the arbitrary conduct of Governor da Costa in dissolving the *Senado*, and requesting His Majesty to disapprove of the dissolution. The Government Gazette will appear to-day, with the Governor's decree dissolving the re-elected Corporation and appointing another Commission to take charge of the *Senado*, pending a second election. His Excellency deserves unqualified thanks for all this uninterrupted farce. Another soldier died yesterday at the Cacilhas lazarette. It is now a recognised fact that the transport *India* left Macao with cholera patients on board; for besides the two African patients who were shipped from the hospital, it has been ascertained that two cases of cholera had occurred on board the transport while she was lying abreast of the Kowloon Dockyard in Hongkong harbour. Dr. Marques was sent by Commander Gusman to attend to the patients; one of these died before the Doctor's arrival; the other, who was promptly taken in hand, ultimately recovered. When the *India* went to Macao to ship the contingent of soldiers for Timor and Lisbon, Governor da Costa must have been informed of these facts. Why was the transport allowed to take in passengers before she was thoroughly quarantined and disinfected? The officers of the Macao battalion and of the Police Force are going to make a suitable demonstration in honour of Major Vaquinhas. A requiem mass will be celebrated at the Cathedral.

ONE of the most unpardonable nuisances with which this colony is afflicted is the indiscriminate way in which night-soil is carried about town during the small hours. In the central portion of the town the stench produced by the ineffective, imperfect and highly objectionable method of removing the city's refuse, is something abominable. Why should the Sanitary Board allow this nightly process of infection we know not; but are strongly inclined to believe that most of the fever, small-pox and other disorders which are occasionally prevalent in the thickly populated quarters of the town owe their origin and their dissemination to our highly defective system of night-soil removal. From one o'clock in the morning until sunrise the streets of Victoria may be said to be literally bathed in a thick, malodorous and disease-breeding exhalation, sufficient in intensity and in foulness to drive away all the army of ghouls and evil spirits which are said to hover about a sleeping city in the dead of night. Any one returning home or going out at a late hour, is both a witness and a victim to the sickening scenes which nightly occur along the streets of the central portion of the town; residents in the central quarters cannot, in this sultry weather, keep their windows open during the night; in a word, the city undergoes a nightly process of fecal infection, which is a disgrace to the Sanitary Board as well as to the Government authorities under whose supervision and control that Board is supposed to exist. We are told that the night-soil is removed out of town; we do not question the removal, but the manner of it. Surely some deodorising process could be adopted before the refuse is transferred to the imperfectly covered buckets, and buckets could be constructed under such heretical conditions as to preclude the exhalation of their contents! The night-soil carriers are not over-scrupulous as to whose olfactory organs they offend, their own nasal sensibilities being probably blunted by a constant inhalation of the noxious fluid. We were lately witnesses of a new system in which some of the over-worked fraternity dispense of their objectionable freight; they simply empty their buckets over every piece of waste ground which lies in their path. We saw fully half dozen of them the other night throwing out the contents of their buckets over the bank on Pedder's Hill! Imagining for a moment the exhalation which would burst forth from that locality under the first rays of an August sun, and the cause of sickness in the neighbourhood will be easily understood. The authorities concerned should at once put a stop to this most dangerous and unsatisfactory state of things.

We learn from Manila that the British barque *Australia*, which went aground on the San Nicolas shoal, was successfully floated off on the 20th inst., with the assistance of the steam tugs *Felicia* and *Bawan*. The *Australia* was subsequently towed to Canadas Bay, Cavite, where she now lies at anchor; after discharging her cargo of coal her bottom will be surveyed, and any repairs proceeded with.

We are informed by the agent of the Austro-Hungarian Lloyd's S. N. Co. that the Company's steamer *Poseidon* left Singapore yesterday for this port.

THE *Bombay Gazette* of the 9th inst. has published a London telegram of the previous day stating that at the meeting of the shareholders of the Deccan Mines Company the adjournment was voted by a majority of 44 to 5. Mr. Batten, chairman, decided that there should be an immediate poll on the question. A startling scene then occurred, the majority shouting "shame," "thieves," "swindlers," then leaving the room. When the poll took place, Sir Julian Goldsmith challenged the Board to countenance Mr. Watson's conduct in seeking proxies which he holds representing 25,798 shares. Mr. Watson opposed the adjournment, and offered to meet a committee of shareholders. The *Daily News* recommends a withdrawal of the proxies held by Watson.

SAYS THE *Alta California*:—"Colonel Mosby has written an open letter to Secretary Bayard to complain of being dismissed from the Hongkong Consulship for insubordination. The tone of the letter confirms the propriety of the dismissal." It is scarcely necessary to say that the *Alta* is a confirmed supporter of the Democratic party.

THE *Kobe Yushin Nippon* says that an extraordinary specimen of obesity is now being exhibited at the Ebisu Theatre, near the Kusunoki Temple. This phenomenon is a girl said to be 13 years and 9 months old, over 8 shaku in height and weighing 35 kwamme. [1 shaku is equal to about 11.93 inches, and 1 kwamme to about 8.8 lbs.]

SELDOM has the Macao semi-official organ, the *Independente*, shown itself so plainly in its true chameleon colours as in its issue of the 28th inst. Our abject contemporary—which is, in a sense of the word, a newspaper—has never revealed its spirit of mean subservience to the powers that rule and ruin the Holy City in a more emphatic manner than in the number we have before us. The grave sanitary situation of Macao is treated as a mere matter of ordinary occurrence; the introduction of cholera lazarets within the city is supported, simply because it was a measure enacted by the Governor; the deaths which occurred at Cacilhas are attributed to excesses committed by the inmates of the lazarets; Major Vaquinhas' sad fate only finds a few lines in a paragraph on the third page of the paper; the dissolution of the Municipal Chamber by a despotic Governor is actually upheld as a just measure; His Excellency's recent interference with the rights of the electors, a fact vouchsafed for and testified to by eye-witnesses, is flatly denied, and the re-election of the members of the old Chamber is attacked on grounds which will not bear a moment's investigation. We think Governor da Costa can well say with Johnson—"Oh! save me from my friends!" That his advisers have precipitated him into the mire in which he now wallows, there can be no doubt; that an atrocious and lying organ of public flattery has done him an incalculable amount of harm by praising his notorious misdeeds, his erratic system of administration, and his spirit of revenge and *meant-spile*, is equally certain. The hope of many a resident of the neighbouring colony is that the *Independente*'s false assertions may be threshed out by a strictly independent organ of public opinion, fearless and truthful enough to tell Senhor da Costa that he has deviated from the path of his duty and is leading the colony he was sent to govern to a premature wreck.

THE case of the blind collier, Adam Bate, at Bilston, whose eyesight is reported to have been suddenly restored by a flash of lightning, is said to be a great benefit to the people of China, as it has been to the European nations. But a Chinese in Hongkong who would take the trouble to read the *Evening Pharsalia* and the *Morning Saddle*, two noted English journals published in the Colony, would very soon come to see how illusory are the benefits of a free public press. Your morning contemporary is certainly the champion of the people, if by "the people" you mean the few representatives of the moneyed class of foreigners in the Far East whose traditional rules of conduct has been, and is to make as much money as they can out of Chinese, and to despise that race as much as possible. The *Daily Press* has all the stolid insolence, narrow-minded selfishness, and imperviousness to many ideas and all generous sentiments, which are so characteristic of its proud and powerful shadowy partisans. It does not take the trouble even to disguise its tone of aggressive selfishness. The evening paper, on the other hand, tries to colour its vulgar arrogance and sordid obsequiousness to the British Philistine with rose-pink phrases, borrowed from the missionaries, about virtue, morality, and philanthropy. Behold a sleek sepulchre, but full of dead men's bones!

I have been led to make these remarks by reading the comments of the two journals in question upon the recent action of the Governor with regard to Chinese mendicancy and the burning of Joss paper in Hongkong. His Excellency's action, as explained by him in the Council Chamber on Tuesday afternoon, must appeal to the few thoughtful and generous minds of England (who, I hope, are still to be found even in Hongkong), as being in the highest degree wise, considerate, and humane. Praise in such a case would be quite superfluous. But I remember to have heard a story of a British soldier—Governor somewhere—in the Straits—who, when some popular outcry was raised against his interference on behalf of the Chinese, is said to have blurted out this blunt

British soldier-like fashion:—"I am not your governor, you, you potato-planter's." Now, Sir William des Voeux: "I can, I have, and I will please me as much as I like." If His Excellency goes on in that same quiet unostentatious way of his, to investigate matters relating to the Chinese in this Colony, I am confident he will come upon

WE note that Messrs. W. Simons and Co. recently brought complete, from their yard at Kowloon, the patent hopper dredger *Sodega-Mari*, which is to be employed in extensive harbour improvements in Japan. The vessel has about 300 tons "hopper" capacity, and the bucket ladder is adapted to dredge to a depth of 30 feet below the water level. She is fitted with all the recent improvements for a vessel of this special type, and is a duplicate of the hopper dredger *St. George*, recently supplied by the same builders to the Admiralty in connection with the dredging operations at Portsmouth. The *Sodega-Mari* will at once be mastred and prepared for the voyage to Japan.

ACCORDING to a telegram in a Saigon contemporary, M. Le Myre de Vilier, who will be well remembered as Governor-general of French Cochinchina, has been appointed a grand Officer of the Legion of Honour.

"Snow" pidgin would seem to be a remunerative business in Japan. We read that a theatrical company with a capital of 30,000 yen is to be established in Kyoto, where there are already eleven theatres carrying on business in active rivalry.

WE are informed that the first shoot for the Hongkong Rifle Association's Spoon Competition at 600 yards will take place on Saturday, the 1st September 1888, commencing at 5 p.m. Martini-Henry Carbines allowed 2 points in the seven shots. Paper sights may be used on back sights of Carbines only.

THE Prince of Wales has given it as his opinion that the statue of Venus recently unearthed at the Indian village of Subiaco is "the perfection of feminine contour and physical symmetry." That settles it. It is generally believed that "Tummy" knows what he's talking about.

SAYS THE *Alta California*:—"Colonel Mosby has written an open letter to Secretary Bayard to complain of being dismissed from the Hongkong Consulship for insubordination. The tone of the letter confirms the propriety of the dismissal." It is scarcely necessary to say that the *Alta* is a confirmed supporter of the Democratic party.

I have been led to make these remarks by reading the comments of the two journals in question upon the recent action of the Governor with regard to Chinese mendicancy and the burning of Joss paper in Hongkong. His Excellency's action, as explained by him in the Council Chamber on Tuesday afternoon, must appeal to the few thoughtful and generous minds of England (who, I hope, are still to be found even in Hongkong), as being in the highest degree wise, considerate, and humane. Praise in such a case would be quite superfluous. But I remember to have heard a story of a British soldier—Governor somewhere—in the Straits—who, when some popular outcry was raised against his interference on behalf of the Chinese, is said to have blurted out this blunt

British soldier-like fashion:—"I am not your governor, you, you potato-planter's." Now, Sir William des Voeux: "I can, I have, and I will please me as much as I like." If His Excellency goes on in that same quiet unostentatious way of his, to investigate matters relating to the Chinese in this Colony, I am confident he will come upon

If His Excellency goes on in that same quiet unostentatious way of his, to investigate matters relating to the Chinese in this Colony, I am confident he will come upon

many things in which he can, he should, and, I believe, he will interfere. His Excellency has heard of one late Governor of this Colony being remembered by the people as "Sir Arthur the
